CIT [2026] No. 0004

Letter Regarding Adjusting the Inquiry Method for Certification

Certificate Information

Dear Certified Organizations and Related Units:

Recently, the State Administration for Market Regulation (Certification and Accreditation Administration of the People's Republic of China) issued the "Announcement of the State Administration for Market Regulation on Strengthening the Management of Certification Information Reporting and Certification Certificate Information Inquiry" (Announcement No. 28 of 2026, hereinafter referred to as "Announcement No. 28"), which will take effect on September 30, 2026. Announcement No. 28 clearly distinguishes and standardizes the channels for querying certification certificate information. The core requirement is to strengthen the main responsibility of certification bodies and clarify that certification certificate information should be queried primarily by certification bodies.

To implement the requirements of Announcement No. 28 and ensure that all relevant parties can accurately and conveniently verify the validity of certificates, the adjustment arrangements for the information inquiry method for certification certificates of this organization are hereby announced as follows:

一、 Inquiry Channel Adjustment

Starting from September 30, 2026, the certification certificates issued by this institution will be publicized and available for inquiry in the following manner:

1. Certificates issued in accordance with the unified rules of the Certification and

Accreditation Administration of the People's Republic of China.

The public can inquire through the official website of this organization and the official website of the Certification and Accreditation Administration of the People's Republic of China (National Certification and Accreditation Information Public Service Platform). Among them, our organization's official website serves as the primary inquiry channel, providing the most direct and real-time verification of validity.

2. Certificates issued in accordance with the institution's own rules.

According to Announcement No. 28, the public inquiry channel for this type of certificate is the official website of this institution (website: <http://www.cnhonek.com>). The official website of the Certification

and Accreditation Administration of the People's Republic of China will no longer provide an inquiry portal for this

二、 Related Instructions

1. Certificate validity remains unchanged: This adjustment only involves changes in the ownership of the certificate information inquiry channel and does not affect the legal validity of the certificate itself. All certification certificates issued by this organization remain valid within their validity period, and the certification conclusions and certificate validity are not affected by this adjustment.
2. Authority of the organization's official website: This organization is responsible for the authenticity, accuracy, and completeness of the certification information provided. The organization provides the public with a free, real-time, and convenient way to check the validity of certification certificates through its official website. This method has been submitted to the Certification and Accreditation Administration of the People's Republic of China and made public as required.
3. Regarding situations where the certificate cannot be found on the Certification and Accreditation Administration of China (CNCA) website: Due to different certificate types, some certificates cannot be found on the CNCA website. This is a normal channel classification stipulated in Announcement No. 28 and does not mean that the certificate is invalid, nor does it mean that there is an abnormality in the qualifications of this institution. Please do not use this as the sole basis for determining the validity of the certificate or the qualification status of this organization.

三、 Friendly Reminder

1. It is recommended to take a screenshot and save it: To facilitate your organization's proof of the official certificate inquiry status before the adjustment in scenarios such as bidding and customer review, it is recommended that you log in to the official website of the Certification and Accreditation Administration of the People's Republic of China before September 30, 2026 to take a screenshot and save the current certificate inquiry information.
2. Adjusted verification method: After September 30, 2026, when presenting or verifying certification certificate information to clients or bidders, please prioritize checking through the official website of this organization and print and save the query results. If necessary, you can also contact this organization to provide written proof of the validity of the certificate.
3. Contact Information: If you have any questions, please contact our organization promptly.
Tel: 0519-81819001/18052549001
Contact Email: 717109001@qq.com

Our organization will strictly comply with laws, regulations, and regulatory requirements to continue providing standardized and professional certification services. We apologize for any inconvenience caused by the adjustment of our inquiry channels.

This is to inform you.
